INDEPENDENT AUDITOR'S REPORT

Board of Directors
Lake Placid Water Control and
Improvement District No. 1
Guadalupe County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Lake Placid Water Control and Improvement District No. 1 (the "District") as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Member of
American Institute of Certified Public Accountants
Texas Society of Certified Public Accountants

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors
Lake Placid Water Control and
Improvement District No. 1

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2022**

Management's discussion and analysis of the financial performance of Lake Placid Water Control and Improvement District No. 1 (the "District") provides an overview of the District's financial activities for the fiscal year ended September 30, 2022. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) fund financial statements and government-wide financial statements and (2) notes to the financial statements. The fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide portion of these statements provides both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position is the District-wide statement of its financial position presenting information that includes all of the District's assets, liabilities and deferred inflows and outflows of resources, if applicable, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The government-wide Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenditures are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has two governmental fund types. The General Fund accounts for resources not accounted for in another fund including property tax revenues as well as general and administrative expenditures. The Debt Service Fund accounts for property taxes and financial resources restricted, committed or assigned for servicing the payment of contract debt service costs.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2022**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund financial statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position, and the reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. The budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$1,057,134 as of September 30, 2022. A comparative analysis of government-wide changes in net position is presented below. Note, the fiscal year ending 2021 amounts are unaudited.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2022**

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The General Fund fund balance increased by \$149,408, primarily due to property taxes allocated to operations and maintenance exceeding contract and other administrative expenditures.

The Debt Service Fund fund balance increased to \$965,367 due to the property taxes allocated to fund the contractual payments of debt service exceeding current year debt issuance costs.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors annually adopts an unappropriated budget and did not amend the budget for the current fiscal year. Actual revenues were \$159,976 more than budgeted revenues and actual expenditures were \$10,568 more than budgeted expenditures which resulted in an overall positive variance compared to budget of \$149,408. See the budget to actual comparison for more information.

LONG-TERM DEBT ACTIVITY

As of September 30, 2022, the District has no long-term debt outstanding. However, the District has contractually agreed to fund principal and interest payments on \$32,495,000 of debt issued by the Guadalupe-Blanco River Authority (the "GBRA"), the proceeds of which will be used for the design and construction of a dam and hydroelectric facilities to serve Lake Placid. During the current year, the District paid contract debt issuance costs totaling \$153,260.

CURRENTLY KNOWN FACTS, DECISIONS OR CONDITIONS

The adopted budget for fiscal year 2023 projects an increase in the General Fund fund balance of \$79,634. Revenues are expected to be \$231,979 and expenditures are expected to be \$152,345. For the fiscal year ending September 30, 2023, the District has levied a total tax rate of \$0.7846 per \$100 of assess valuation, of which 15% will be used to fund general operations and 85% will be used to fund GBRA contract debt service payments.

CONTACTING THE DISTRICT'S MANAGEMENT

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Lake Placid Water Control and Improvement District No. 1, c/o Allen Boone Humphries Robinson LLP, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027.

Change in Net Position - Governmental Activities	<u>\$ 1,074,981</u>
--	---------------------

The accompanying notes to the financial
statements are an integral part of this report.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022**

NOTE 1. CREATION OF DISTRICT

Lake Placid Water Control and Improvement District No. 1 (the "District") was created, organized and established on July 14, 2020, pursuant to Article XVI, Section 59 of the Texas Constitution and Chapter 51 of the Texas Water Code, and confirmed by an election held on November 3, 2020. The District was created for the purpose of repairing the Lake Placid dam and flood gates and the maintenance and operation of Lake Placid within its geographical jurisdiction. The District is governed by a five-member Board of Directors who were elected by District residents on November 3, 2020. The District held its first meeting on July 22, 2020.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Texas Commission on Environmental Quality (the "Commission").

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification").

GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Net Investment in Capital Assets – This component of net position consists of capital assets reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements. The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Amounts recorded due to and due from other funds, if any, are eliminated in the Statement of Net Position. The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

Fund Financial Statements

The District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

The District has two governmental funds and considers each to be a major fund.

General Fund - To account for resources not accounted for in another fund, ad valorem taxes and general expenditures.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing the payment of contract debt service costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both “measurable and available.” Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term contract debt, which are recognized as expenditures when payment is due. Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. As of September 30, 2022, the General Fund owed the Debt Service Fund \$2,803 for tax collections and contract debt related costs.

Budgeting

An unappropriated budget was adopted for the General Fund on a basis consistent with generally accepted accounting principles. The District's Board utilizes the budget as a management tool for planning and cost control purposes. The budget was not amended during the fiscal year. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the budgeted amounts compared to the actual amounts of revenues and expenditures for the current year.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by directors are considered to be wages subject to federal income tax withholding for payroll tax purposes only.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position. Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balance provides an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources.

Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

NOTE 3. CONTRACT DEBT

At an election held on November 3, 2020, voters of the District approved the provisions of a contract between the District and the Guadalupe-Blanco River Authority (the "GBRA") (see further discussion at Note 6). The District is authorized to levy a contract tax to repay principal and interest due on the contractual debt issued by the GBRA.

In June 2021 and February 2022, the GBRA issued \$1,560,000 of Contract Revenue Bonds, Series 2021A, and \$30,935,000 of Contract Revenue Bonds, Series 2022A, respectively. The Series 2021A bonds carry interest rates ranging from 0.60% to 2.07% and principal maturities through August 15, 2050. The Series 2022A bonds carry interest rates ranging from 0.60% to 2.13% and principal maturities through August 15, 2051. The proceeds of both series of bonds are to be used for the design and construction of dam and hydroelectric facilities to serve Lake Placid. In exchange, the District is obligated to fund principal and interest payments due on the bonds issued by the GBRA. For the fiscal year ended September 30, 2022, the GBRA used capitalized interest received from the Series 2021A and 2022A bond proceeds to fund \$19,458 and \$201,072, respectively, of interest due on the bonds.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022**

NOTE 3. CONTRACT DEBT (Continued)

As of September 30, 2022, the District's future contractual financing (debt service) obligations due to the GBRA for the bonds are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 940,000	\$ 410,733	\$ 1,350,733
2024	995,000	405,095	1,400,095
2025	1,000,000	399,123	1,399,123
2026	1,010,000	393,124	1,403,124
2027	1,015,000	387,064	1,402,064
2028-2032	5,180,000	1,843,069	7,023,069
2033-2037	5,340,000	1,678,870	7,018,870
2038-2042	5,635,000	1,384,147	7,019,147
2043-2047	6,115,000	903,915	7,018,915
2048-2051	5,265,000	276,927	5,541,927
	<u>\$ 32,495,000</u>	<u>\$ 8,082,067</u>	<u>\$ 40,577,067</u>

During the year ended September 30, 2022, the District levied an ad valorem contract tax rate of \$0.68 per \$100 of assessed valuation, which resulted in a tax levy of \$1,115,310 on the adjusted taxable valuation of \$164,817,725 for the 2021 tax year. The contract between the District and the GBRA (see further discussion at Note 6) requires the District to levy and collect an ad valorem contract tax sufficient to pay principal and interest on bonds issued by the GBRA to fund dam and hydroelectric facilities serving District residents. See Note 5 for the maintenance tax levy.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Deposits (Continued)

Cash includes cash on deposit. Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$10,656 and the bank balance was \$16,563. The District's bank balance was not exposed to custodial credit risk at September 30, 2022.

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors. Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Investors, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measures all of its portfolio assets at amortized cost. As a result, the District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from TexPool.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022**

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

As of September 30, 2022, the District had the following investments and maturities:

Funds and Investment Type	Fair Value	Maturities of Less Than 1 Year
<u>GENERAL FUND</u>		
TexPool	\$ 129,663	\$ 129,663
<u>DEBT SERVICE FUND</u>		
TexPool	<u>962,564</u>	<u>962,564</u>
TOTAL INVESTMENTS	<u>\$ 1,092,227</u>	<u>\$ 1,092,227</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At September 30, 2022, the District's investments in TexPool were rated AAAM by Standard & Poor's Rating Agency. The District also manages credit risk by investing in cash deposits with balances that are below FDIC insurance coverage or covered by pledged collateral.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value.

All cash and investments in the Debt Service Fund are restricted for contract debt service payments to the Guadalupe-Blanco River Authority.

NOTE 5. MAINTENANCE TAX

At an election held on November 3, 2020, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$0.12 per \$100 of assessed valuation of taxable property within the District. During the year ended September 30, 2022, the District levied an ad valorem maintenance tax rate of \$0.12 per \$100 of assessed valuation, which resulted in a tax levy of \$196,819 on the adjusted taxable valuation of \$164,817,725 for the 2021 tax year. The maintenance tax is to be used by the General Fund to fund expenditures of planning, constructing, acquiring, operating, maintaining and repairing dam and flood gate facilities serving the District.

**LAKE PLACID
WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2022**

NOTE 6. GUADALUPE-BLANCO RIVER AUTHORITY

The GBRA was created by the Texas Legislature to provide stewardship for water resources in its ten-county statutory district, with Lake Placid being within the GBRA's statutory boundaries. On October 27, 2020, the District entered into a Contract for Financing and Operation of Lake Placid Dam and Hydroelectric Facilities with the GBRA to facilitate the replacement of the flood gates and stabilization of the dam and to work cooperatively on the design, construction, finance and ongoing maintenance of the Lake Placid dam.

Pursuant to the Contract with the GBRA, the GBRA will own and operate the dam, flood gates and hydroelectric facilities on Lake Placid and serving the District. The District is responsible for funding the debt service obligations of the GBRA's \$1,560,000 Series 2021A and \$30,935,000 Series 2022A Contract Revenue Bonds (see discussion at Note 3) and for the GBRA's annual operation and maintenance expenses for operating the dam, flood gates and hydroelectric facilities, which the District anticipates financing with future tax revenue and hydroelectric generation revenues.

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District carries commercial insurance for its fidelity bonds and participates in the Texas Municipal League Intergovernmental Risk Pool ("TML") to provide general liability, property, boiler and machinery, and errors and omissions liability coverage. The District, along with other participating entities, contributes annual amounts determined by TML's management. As claims arise, they are submitted and paid by TML. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage since inception.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool Board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.
